## **DETAILED ACTION**

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

No prior art of record alone or in conjunction discloses a electronic game where at least two binary numbers are routed respective to the playing position and assigning them to adjacent playing positions. Where these numbers are used to generate a second set of binary numbers to provide visual indications of on the playing positions, where the two binary numbers create a dynamic game that does not just flip between two states but where the binary numbers generate a second set of numbers thereby creating a constantly changing dynamic electronic game. The prior art only discloses assigning states to a playing position and switching that state on and off.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
